5. Bottom style

NOTE: Only one bottom style may be selected. Flat Bottom is standard if an alternate style is not selected.

NOTE: If a round bottom style is selected, 1/2" to 1" of additional profile height will be added to the seat support. Cannot be paired with rigid insert.

- ☐ Flat (CD-FLAT-BOTTOM) \$0.00

Standard option if no bottom style is selected.

- ☐ Round (CD-ROUND-BOTTOM) \$42.00

1/2" to 1" additional profile height will be added.

Wedge

\$42.00

NOTE: If choosing a wedge, proceed to choosing a wedge height.

NOTE: A reverse wedge will add height to the rear of the seat support surface. Cannot be paired with ROHO Air Insert, only full wedges available with anti-thrust and ischial insert.

8. Ischial modification

NOTE: Ischial inserts are recessed into the mid layer of foam and sit beneath the topper layer. Only one insert may be selected. Additional ischial modification options on next page.

Gel inserts

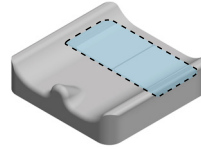

NOTE: A minimum of 3/4" mid layer is required for this insert in section 7. Cannot be paired with a ROHO Air Insert or left/right wedge.

☐ **Quadrigel insert*** (CD-QUADRAGEL) **\$108.00**

Four gel-filled compartments recessed into the mid layer foam in the seat well and through the leg troughs.

NOTE: A minimum of 1/2" mid layer is required for this insert in section 7. Cannot be paired with a ROHO Air Insert or left/right wedge.

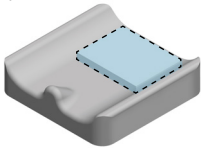

☐ **Ischial gel insert*** (CD-ISCHIAL-GEL) **\$83.00**

Two gel-filled compartments recessed into the mid layer foam in the seat well.

Ischial Visco memory foam insert **\$74.00**

NOTE: A mid layer of foam must be selected in section 7 and, at a minimum, match the insert thickness selected. Cannot be paired with a ROHO Air Insert. Foam type cannot match foam type selected for mid layer in 7.

Rectangular piece of memory foam which is recessed into the mid layer foam in the seat well.

☐ **1" Thick soft Visco memory foam***

ROHO® AIR INSERT

\$375.00

NOTE: ROHO Air Insert includes hand pump and repair kit.

- ☐ **MID PROFILE® insert** (3.25" cell height, 12.5" wide, 9" deep) (CD-ROHO-MID)
- ☐ **LOW PROFILE® insert** (2.25" cell height, 12.5" wide, 9" deep) (CD-ROHO-LOW)

SIZE RESTRICTIONS:

- Minimum width: 16W
- Minimum depth: 16D

FOAM RESTRICTIONS:

- Top layer:
- No HR/Visco Medium foams
- Middle layer:
- Only HR/Visco Medium foams
 - Top mid layer must be 1/2" thick

ROHO INSERT CANNOT BE PAIRED WITH:

- Wedge
- Anti-thrust
- Gel insert or Ischial memory foam insert
- Recess
- Coccyx cut out
- Tapered adductors

Can be paired with straight adductors if seat is 18W or greater.

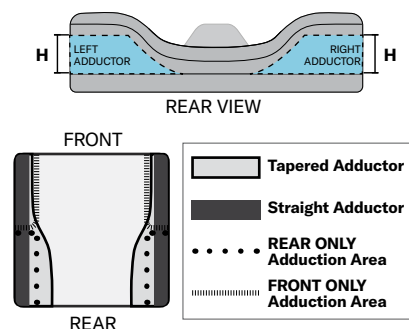

9. Adduction

INSTRUCTIONS: Select an adductor height for each side, then select an adductor style and material for each side. If no adduction is needed, choose "none".

If a height is selected but not a style, a full-length, straight, adductor will be applied.

NOTE: Custom adductor requests should be noted in the "Additional information" page 5.

NOTE: One adductor style may be selected for each side of the seat support. Front or rear only adductor will be 1/2 the seat support depth or match an anti-thrust depth. Tapered adductor cannot be paired with ROHO Air Insert. Straight adductor CAN be paired with a ROHO Air Insert, but must have a seat width 18 wide or greater.

1½" wide cut will be made along the entire depth of seat support. Rail cuts will affect the amount of cushion left along the sides of especially low-profile seat supports.

16. Leg length discrepancy

The discrepancy reduces the seat depth on the specified side. Standard cut out is half the seat support width.

An Offset Leg Length Discrepancy maintains foam abductor shape if built into the seat support or removable abductor centered placement. If offset is selected, the cutout width is reduced by 1½".
