**ACTA-BACK®**

**E2613 / E2614**

POSITIONING BACK, POSTERIOR

**CLINICIAN TIP**
Great choice for those with trunk stability
Add lateral supports to accommodate leaning
**ACTA-BACK® SERIES PRODUCT FEATURES**

- Patented moldable aluminum stays conform and support the user’s back.
- Complete with patented Compass® or Power Mount Hardware.
- Durable aluminum shell comes with head support holes.
- Aluminum shell comes with lateral trunk support hardware slots (excluding Acta-Back Deep®).
- Three layer foam construction, including comfortable Visco surface layer.
- BodiLink™ Head Support (E0955) and Hardware (E1028) are optional and available on page 20.

**ACTA-BACK® HARDWARE OPTIONS**

See page 4-5 for details.

- Compass® 4 Quick Release 2 Point (Q-COMPASS)
- Compass® 4 Fixed 2 Point (NQ-COMPASS)
- Compass® 4 Quick Release 4 Point (Q-COMPASS4)
- Compass® 4 Fixed 4 Point (NQ-COMPASS4)
- Compass® Power Mount Bracket See page 5

Hardware option can be selected by adding the (part number) to the base back support number

**MOLDABLE SUPPORTS**

Standard on all Acta-Back® and Acta-Embrace™ back supports, moldable stays allow for easy on-the-spot customization to accommodate a variety of spinal curvatures. Stays are located inside the zippered cover, behind the foam cushion surface, yet remain accessible while the user is seated.

Moldable stays allow for continual support of changing conditions and can easily accommodate rotation with offset placement well before trying to rotate the back support.

Mild to aggressive support can be achieved anywhere from the thoracic down to the lower-lumbar region. Use the stays to encourage proper positioning of the pelvis through input to the lower lumbar region.

Stays prevent high peak pressures by providing additional cushion contact with the user unlike traditional planar back supports. The moldable stays create a support surface unique to the individual.

Rigid lateral hardware comes standard.

**COVER OPTIONS**

See page 2 for details.

- Comfort-Tek™ (COMFORT-TEK)
- Stretch-Air™ (STRETCH-AIR)

Cover option can be selected by adding the (part number) to the base back support number

ACTA-BACK® CONTOUR

LATERAL SUPPORT DIMENSIONS

ACTA-BACK® CONTOUR FEATURES

- Back design offers inclusive lower thoracic trunk supports providing great pelvic support while not limiting the user’s upper thoracic range of motion.
- Comes standard with moldable stays.
- Bodilink™ Head Support (E0955) and Hardware (E1028) are optional and available on page 20.

ACTA-BACK® CONTOUR SIZES

*Length (L) refers to the actual size dimension of the support from bottom to top edge
*24” Wide back supports require 4 Point Hardware or Power Mount Hardware

**XX & YY to be replaced / XX = width & YY = length in inches**

*See page 9 for hardware and cover options.*
ACTA-BACK® LTS
LATERAL TRUNK SUPPORTS
See page 7 for details.

LATERAL TRUNK SUPPORT OPTIONS
See page 7 for details.

4" D x 3" L (LAT-4D3L-COMFORT-TEK or LAT-4D3L-STRETCH-AIR)
5" D x 4" L (LAT-5D4L-COMFORT-TEK or LAT-5D4L-STRETCH-AIR)
6" D x 4" L (LAT-6D4L-COMFORT-TEK or LAT-6D4L-STRETCH-AIR)
7" D x 5" L (LAT-7D5L-COMFORT-TEK or LAT-7D5L-STRETCH-AIR)

Lateral trunk support option can be selected by adding the (part number) to the Acta-Back® LTS part number.

ACTA-BACK® LTS FEATURES
• Features lateral trunk supports in four different sizes.
• Laterals are width and height adjustable through slots.
• Extra lateral hardware links available to provide optimal contact with the user.
