**ACTA-RELIEF™**

*ACTA-RELIEF™* COMFORT designs

Also available as a custom back. See page 58 for details.

**E2615**
POSITIONING BACK, POSTERIOR LATERAL

**E2620**
POSITIONING BACK, PLANAR WITH LATERAL SUPPORTS

---

**CLINICIAN TIP**
Adjustability of the dials provides continual comfort for those with progressive conditions or hypersensitivity.

The 10" L Acta-Relief™ back supports are ideal for an active user. The back supports range from 3.3 lbs - 3.9 lbs and, even with hardware included, are lighter than a carbon fiber back.

*U.S. Backrest Patent No. 14/609,202*  
*Other Patents Applied For*
• Designed to effortlessly adjust, the Boa® closure system brings comfort and support to the lower and upper thoracic regions.

• With the Boa® reel and cable system, equal and stable pressure distribution is accomplished in an “off the shelf” back design.

• The open back frame design gives the ability to off-load the pressure typically seen on spinal deformities through the back frame opening.

• BodiLink™ Head Support (E0955) and Hardware (E1028) are optional and available on page 20.

• Available head support attaches through the use of a bracket giving the necessary clearances to accommodate more aggressive deformities.

• Lateral trunk supports (E0956) are optional and available on page 22.

THE BOA® REEL
See page 6 for details.

Pull to release tension.

Push to engage the system. Turn right to tighten.
